---

## Professional Experience

Founder & Full-Stack Developer — CodeNest | Remote (2019–Present)

Founded and led CodeNest, delivering custom full-stack solutions for small businesses and startups.

- Developed 15+ web applications, from single-page landing pages to full e-commerce and SaaS platforms
- Managed full project lifecycle: client engagement, architecture, UI/UX, coding, testing, and deployment
- Built and deployed the CodeNest site with React.js, Next.js, Tailwind CSS, and Vercel

- Collaborated with a remote team of developers, designers, and testers to ensure quality and delivery timelines
  - Led client presentations, created project proposals, and maintained long-term client relationships
- 

## Selected Projects
